

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

Exchange  
Library Hawaii  
1-8-80

## TO THE PUBLIC:

**T**HE Library and Reading-Room Association, under whose auspices this Exhibition is held, was organized:

1. To maintain a public Reading-Room, liberally supplied with papers and periodicals, open at all reasonable hours, and free from all unnecessary restrictions;
2. To provide a place of respectable resort, with pleasant surroundings, and thus remove, in some measure, the temptation to patronize places where the surroundings and tendency are towards evil rather than good;
3. To build up, in Honolulu, a public Library, worthy of the capital city of the Kingdom, and one which our citizens shall point to with pride in years to come.

The Association having the above objects in view, has been organized on the broadest and most liberal basis. Membership is open to all respectable persons, regardless of any distinction of race, sex, or religion. The

---

dues have been fixed at as low a figure as is consistent with the paying of current expenses and the proper maintenance of the organization. The Association has done, thus far, a good work, is in a prosperous condition, and is free from debt.

For the proper and efficient prosecution of the work undertaken, it is necessary that the Association should be provided with enlarged accommodations, which can only be done in a satisfactory manner in a building of our own. By the liberality of the Government, the Association has been granted a royal patent for a lot (47 feet 6 inches wide by 109 feet deep) on the corner of Hotel and Alakea streets,—on condition that a suitable building be erected thereon by June, 1883. It is estimated that such a building as will properly meet our requirements and allow space for future growth, will cost about \$15,000. It is toward raising this amount that the present exhibition is held. It is confidently believed, that the people of Honolulu will not allow an enterprise of such importance to the welfare and reputation of this community, to fail for want of the necessary funds.
